PRESIDENT'S WELCOME

It gives me great pleasure to welcome you all to today's match between the Cyprus Rugby Federation and the Malta Rugby Football Union, marking the start of the 2025/26 season. This opening fixture is always a special occasion - a celebration of the hard work, passion and dedication that drive our sport forward here in Cyprus.

As we begin this new chapter, I am proud to introduce and welcome our newly-formed committee:

President: Constantinos Constantinides

Chairperson: Karen Ross

Treasurer: Andreas Ioannou

General Secretary: Duncan Kirby

Technical Director: Antonio Fiorillo

Together, we are committed to strengthening the foundations of Cypriot rugby, fostering growth at every level and ensuring that our national team and clubs continue to represent Cyprus with pride and integrity.

I would also like to extend my heartfelt thanks to our volunteers, whose tireless efforts behind the scenes make everything we do possible. Your dedication keeps our community strong and our game thriving.

Finally, a warm thank you to our fans - your passion, energy and unwavering support mean the world to our players and to everyone involved in the Cyprus Rugby Federation. We hope today's match brings excitement, pride and a shared sense of what rugby is all about: teamwork, respect and spirit.

Enjoy the game,

MEET LIAM DUNSEATH, CYPRUS RUGBY'S NEW HEAD COACH

What attracted you to the Cyprus Rugby Head Coach role in particular?

Having proven my ability to lead teams like Imperial Medical University to consistent victories over the past two seasons, and seeing that Cyprus were underperforming, with only two wins in their last ten games, I saw an opportunity to understand why and to explore how we could turn performances into results.

What are your key priorities and goals for the squad in your first competitive match and how will you measure success as you begin to shape the team's future?

Everyone wants to win and we appreciate the support of our fans who also deserve a result from us. When we perform well, the score tends to take care of itself. Our focus is on applying our systems consistently to achieve positive results. To gain the upper hand, we must match our opponents' intensity and physicality — and then raise the bar to become the most competitive side possible.
